

## **WHO SHOULD HAVE EARLY GLUCOSE TOLERANCE TESTING (GTT)?**

Consideration should be given to an early screening test for Gestational Diabetes in women with the following risk factors:

- Advanced maternal age
- Obesity
- Prior history of Gestational Diabetes
- Strong family history of diabetes
- Prior delivery of a macrosomic infant, stillbirth or an infant with any of the anomalies typical for diabetes
- Ethnic groups such as Hispanic, African American, Native American, South or East Asian, or of Pacific Island descent
- Women with PCOS
- Chronic steroid use
